

# PORTABLE WIRELESS BATTERY OPERATED BACK-UP CAMERA

- ▶ 2.4GHz RF Technology
- ▶ Transmitting Distance: minimum 90' barrier free
- ▶ Highest sensitivity and image quality camera
- ▶ IR LED and switch for night vision
- ▶ Video format: NTSC
- ▶ Audio: available
- ▶ Voltage: 12V
- ▶ Lithium Ion rechargeable battery
- ▶ Operating temperature: 0 to 65°C
- ▶ Enclosure material: Aluminum Alloy.
- ▶ Dustproof, waterproof, protection against hydrochloric acid
- ▶ Dimensions: 97(W)x82(H)x140(L)mm

## TrailerCam™

- Magnetically attached to any part of the truck or tractor/trailer.
- Transmits high quality, latency free video images & audio to monitor in cab.
- Eliminates high cost cable installation & labor.
- Allows for usage with different trailers, swapping trailers & other pairing with TrailerCam™ devices (for multiple trailer fleets).
- Waterproof & capable of withstanding the highest industry standards for shock & vibrations.
- Exceptional quality & reliability, Patent Pending TrailerCam™, developed & assembled in the USA.
