FULL-TIME
SYSTEM INSTALLER / SERVICE TECHNICIAN
Based out of FLO's Mississauga Facility

Are you looking for the opportunity to have a career – not a job? To get immediate feedback from a customer for a job well done?

Must have...

A minimum of five (5) years experience of field service and installation on construction equipment including at least two (2) years experience installing / servicing a major brand of lubrication system (i.e. Lincoln, SKF, Beka or Groeneveld).

Do you have?

- A “hands-on tools” background i.e. previous mechanical experience in construction or highway truck / trailer maintenance or fabrication.....**OR**
- A mechanical aptitude and experience working with hand / power tools as demonstrated by doing your own auto repairs, home renovations, sheet metal work, etc.**OR**
- On-site welding and fabrication experience.....**OR**
- Technical education i.e. pre-apprenticeship course, college mechanical diploma, currently in an IMM or heavy truck / coach apprenticeship program.....**AND**
- A valid “G” license with a clean driving record & personal safety equipment.

If yes to the above, e-mail your resume to hr@flocomponents.com at FLO Components, an Award winning supplier of Auto Greasing Systems and Fluid Handling “**SOLUTIONS**” today.

We need a mature self-starter to do on-site installations and servicing of auto grease systems at customer locations in Southern Ontario. There will be some overnight travel within the Province of Ontario. Training is provided. Compensation is based upon experience. Company benefit plan, work clothing and a tool allowance are provided.

START DATE: ASAP

Please visit our Web site at www.flocomponents.com for more information on our Award winning Company.

Established in 1977, and based in Mississauga, Ontario, FLO Components uses application expertise, qualified installation & service technicians combined with high-quality products to provide cost effective Turnkey “Solutions” for all types of lubrication & fluid handling applications. In addition to systems, equipment & lubricants, FLO Components “Solutions” include systems design, on-site installation, in-house and on-site service, scheduled on-site maintenance plans, personnel training and lubrication audits.
