FULL-TIME IN-SHOP TECHNICIAN – ASSEMBLY

Are you looking for the opportunity to have a career – not a job? Looking for an opportunity to grow in skills and abilities? To get immediate feedback for a job well done? Consider working for **FLO**, the Award-winning dual brand **SKF / LINCOLN** Auto Greasing Systems and Fluid Handling “**SOLUTIONS**” supplier.

Do you have?

- Previous experience fixing and / or assembling industrial or automotive equipment using a combination of parts breakdown manuals and AutoCAD drawings.

AND

- Previous experience or hobby based around working “on-the-tools” as indicated by owning (or having access to) a socket set (metric and imperial), basic wrenches (metric and imperial), adjustable wrenches, a screwdriver set and an allen key set (imperial and metric) plus your own safety boots and glasses.

AND

- Proven ability to work independently with minimal supervision. Have the mental agility to multi-task and assemble customized systems one at a time.

Any technical education i.e. pre-apprenticeship course, a college mechanical diploma, partially finished Industrial Maintenance Mechanic or Heavy Truck / Coach Mechanic apprenticeship program would be an asset.

If yes to the above, e-mail your resume to hr@flocomponents.com today.

The successful candidate will assembly customized lubrication systems based upon system manuals and AutoCAD drawings while using hand and power tools. Hours are from 8:00 a/m to 4:30 p/m with an hour for lunch. Location is in our Mississauga facility. Work clothing and a tool allowance is provided.

START DATE: JANUARY 4th, 2021

Please visit our Web site at www.flocomponents.com for more information on our Award winning Company.

Established in 1977, and based in Mississauga, Ontario, FLO Components uses application expertise, qualified installation & service technicians combined with high-quality products to provide cost effective Turnkey “Solutions” for all types of lubrication & fluid handling applications. In addition to systems, equipment & lubricants, FLO Components “Solutions” include systems design, on-site installation, in-house and on-site service, scheduled on-site maintenance plans, personnel training and lubrication audits.
