January 14th, 2021.

To all of our Valued Suppliers:

Yesterday, Premier Doug Ford and the Ontario Government announced a mandatory shutdown of all nonessential businesses in Ontario. Our customers have been asking if we are still open.

Yes, we are open. **FLO** provides goods and services to customers in vital industries, such as Supply Chains, Retail and Wholesaling, Transportation, Construction, Mining, Utilities and Community Services plus Food & Beverage.

We write to advise you that your products are part of the Ontario essential business designation. They are essential to our ability in supporting the above key industries and are needed maintain the needs of our society.

Our products consume items produced by your sub-suppliers as well and as such, their operations would also be considered essential. Please ensure they are also continuing operations to ensure timely delivery of critical items.

Without your support and continued operations, we will not be able to continue support critical infrastructure in these challenging times.

We wish your organization continued health and safety. Please stay safe and know we sincerely appreciate your support!

Chris Deckert,
President, FLO Components Ltd
