### New Line of Oil Bar and Spigots

**FLO Components** is now offering Lincoln's recently introduced Model 84951 Metal Oil Bar with a three-spigot capacity. New locking and non-locking Spigot variations are available to fit the unit.

The Metal Oil Bar features a modular design constructed entirely of steel and a 2.9-gallon removable reservoir. Hole knockouts for 812 inline digital meters are provided.

Lincoln's locking and non-locking Spigots have 3/4-inch NPT outside threads and 1/2-inch NPT inside threads and a pressure rating of 750 psi. Their wetted components are steel, aluminum and nitrile rubber for compatibility with hydraulic and other medium-viscosity oils up to SAE 90.

### New Line of Power Cord and Light Reels

**FLO Components** is offering the new Lincoln line of Power Cord and Light Reels. The new reels are designed for light-, medium- and heavy-duty applications in home, vehicle maintenance and factory environments.

The Light-Duty Reels are ideal for home and small vehicle service shops. They feature a steel housing and 30-foot SJTOW cold weather compatible cord that is grease, oil and water resistant. The reels are available with fluorescent light or triple tap extensions and offer an adjustable cord stop with anti-kink cord spring. The Light-Duty Reels may be mounted on the wall or ceiling.

Developed for vehicle maintenance and industrial environments, the Medium-Duty Reels feature a durable, flame-resistant ABS housing and 50-foot SJTOW cold weather compatible cord that is grease, oil and water resistant. These reels are available with LED, fluorescent light or triple tap extensions and offer an adjustable cord stop with anti-kink cord spring. The Medium-Duty Reels may be mounted on the wall, ceiling or bench with three fixed-angle position steel mounting brackets.

Lincoln's Heavy-Duty Reels are ideal for vehicle maintenance and industrial environments. Available with fluorescent light, with or without power tap, single outlets or dual GFCI outlets, these reels offer a cold weather compatible cord that is grease, oil and water resistant. The cord is spring retractable with a latch and has an adjustable cord stop. The Heavy-Duty Reels may be wall-, ceiling- or bench-mounted.

**About *FLO Components Ltd.***

For over thirty years, leading manufacturing companies in a wide range of industries have depended upon FLO Components' turnkey lubrication "Solutions" to reduce unscheduled downtime and improve productivity. In addition to customized systems, equipment & lubricants, FLO Components' "Solutions" include system design, scheduled on-site maintenance plans, personnel training lubrication audits, in-house and on-site service and on-site installation.

For more information on FLO's systems or any of our Lincoln or other brand products offerings, please contact our Customer Service Department TOLL free at (800)668-5458, locally at (905)671-2355 or visit our web site at [www.flocomponents.com](http://www.flocomponents.com).
