## Enter the FLO Components Lincoln 1844 Grease Gun Giveaway Contest!

Visit FLO Components at the Truck World 2018 tradeshow in Booth #5638, from April 19 to 21, 2018 (see below for details) and enter our Giveaway Contest for your chance to win a Lincoln 1844 PowerLuber Grease Gun (approximate value CDN \$615). The winner will be selected by a random draw from among all eligible entries on April 21 in the FLO Booth at approximately 2:01 p.m. EST.

Can't make it to Truck World? No problem. Enter online using the

[Lincoln 1844 Grease Gun Giveaway Contest Website](http://www.flocomponents.com/1844-giveaway/), then visit that page after the show to see who won.

**GIVEAWAY CONTEST SHORT RULES:** No purchase required. Online entries must be received by 11:59:59 p.m. EST on April 15, 2018. In person entries must be received at Truck World 2018 tradeshow, Booth #5638, from 10:00 a.m. EST on April 19 until 2:00 p.m. EST on April 21, 2018. There will be 1 Prize available to be won consisting of a Lincoln 1844 PowerLuber Grease Gun (approximate value CDN \$615). Skill testing question required. Open to Canadian residents who are the age of majority in the province or territory of residence at time of entry excluding Quebec. Odds of winning depend on number of eligible entries received before contest closes. Limit one entry per person. For full rules and entry details visit: <https://www.flocomponents.com/1844-giveaway/>.

## Complimentary passes for the TRUCK WORLD 2018 Show

Be sure to visit FLO Components at TRUCK WORLD 2018 on April 19-21 in Booth #5638. We will be featuring the SKF MonoFlex™ brand of Fluid Grease Auto Lube Systems, QuickFit™ Onboard Oil Change Systems and the Portable TrailerCam™, a magnetic, wireless, rechargeable battery operated camera that requires NO invasive installation, with several different working demos and system experts on hand to answer your questions.

We would like to offer you free passes to the show. Use [this link](#) to go to the registration form and create a New Registration for free, courtesy of FLO Components Ltd. (a \$20 value). Once you've entered your name, use the VIP Code "FLO" on the next screen in the "Discount Code (VIP Code)" box and complete your free registration.

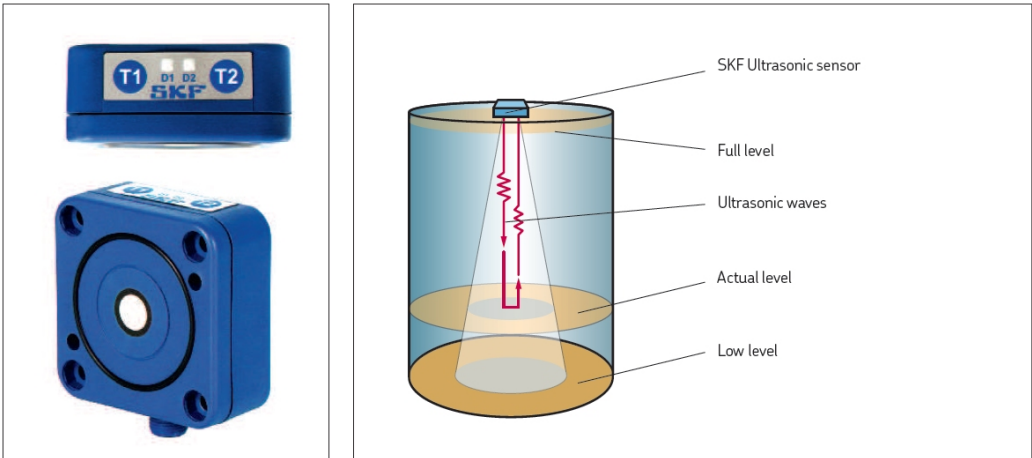

Truck World is the meeting place for Canada's trucking industry, with new products, new ideas, new solutions and 300,000 square feet of trucks, equipment and technology. Truck World takes place at the International Centre, located near Pearson International Airport in Toronto. To find out more about Truck World visit their website: [www.truckworld.ca](http://www.truckworld.ca).

**SKF Analog Ultrasonic Sensor**

The SKF Ultrasonic sensor was developed to improve fill-level monitoring on SKF and Lincoln-branded pumps and reservoirs with lubricant capacities in excess of 5 litres. Suitable for oil and grease applications, the sensor provides continuous level messages for optimum operation.

Virtually maintenance free, the SKF Ultrasonic sensor utilizes ultrasonic waves to provide a non-contact measurement of the distance to the lubricant surface. Depending on the pre-set window limits, a distance-proportional analog signal is output. The sensor's two-colour LED indicates operation and the status of the analog output.

Maintaining the appropriate amount of lubricant in the reservoir helps to avoid under-lubrication and possible equipment damage, while preventing overfilling reduces waste and protects the environment. The SKF Ultrasonic sensor is suitable for mining, rail, heavy industry and food and beverage applications, as well as any industry that uses large lubricant reservoirs.

Feature and benefits:

- Reliable fill-level monitoring
- Easier maintenance
- Improved monitoring of pump function
- No reservoir blind zones
- Analog output
- Continuous level message

## Announcing the Final Winner in the FLO 40th Anniversary Giveaway Contest!

Congratulations to Thomas Steckel of Guelph, Ontario. Thomas' name was drawn randomly from all eligible entries and he successfully answered a skill testing question.

This was the final Lubrication Product Package we gave away over 3 Draw Periods. The first two draws took place on October 1 and November 1, 2017. The winners of each of those draws received a Lincoln 1884 PowerLuber & Lincoln 5900 PowerLock Coupler Pack.

As the winner of the third prize, Thomas had a choice of either the same PowerLuber & PowerLock Pack from the first two giveaways or a FLO Components "18-point Automatic Lubrication System in a box", which is a complete automatic lubrication system kit capable of servicing up to 18 lubrication points on a piece of stationary or mobile equipment in many applications. Thomas chose to receive a Lincoln 1884 PowerLuber & Lincoln 5900 PowerLock Coupler Pack.

Once again we congratulate all the winners of the FLO 40th Anniversary Giveaway Contest. We also thank everyone who participated in the contest as well as the Media that helped get the word out about the contest and of course our sponsors – SKF Lubrication Business Unit.

### About *FLO Components Ltd.*

For over thirty years, leading manufacturing companies in a wide range of industries have depended upon FLO Components' turnkey lubrication "Solutions" to reduce unscheduled downtime and improve productivity. In addition to customized systems, equipment & lubricants, FLO Components' "Solutions" include system design, scheduled on-site maintenance plans, personnel training lubrication audits, in-house and on-site service and on-site installation.

For more information on FLO's systems or any of our Lincoln or other brand products offerings, please contact our Customer Service Department TOLL free at (800)668-5458, locally at (905)671-2355 or visit our web site at [www.flocomponents.com](http://www.flocomponents.com).
