"Meeting Customers' Needs Better" with our newest Mobile Workshop

Have a factory or after-market lube system that's broken or inoperable? Call the experts. FLO will service all types of automatic greasing systems, including SKF, Vogel, Lincoln, Graco, as well as most other major automatic lube system manufacturers' brands.

Our trained technicians will come to your location with our industry exclusive, Mobile Workshops to conduct lubrication system inspections on your critical equipment. FLO's Mobile Workshops are equipped with hydraulic crimpers, welding equipment and on-site inventory, giving FLO a greater ability to adapt to on-site changes. Your customized report will recommend areas for improvement, detail the parts necessary to implement the changes and provide budget prices for parts and labour.

FLO Services Automatic Lubrication Systems of "any" brand or type in...

- Industrial Plants
- Food & Beverage
- Construction & Mining
- Steel Processing & Manufacturing
- Automotive Assembly & Feeder
- Municipal & Transportation

Call or [E-mail our Service Department](#) to arrange for a service call.

Alemite Heavy-Duty Clear Grease Gun Tubes

Alemite's clear grease gun tube lets you see exactly what type of grease is in the cartridge, providing confidence that you are using the specified lubricant for the job.

Benefits

- Avoids wasting costly or specialty greases
- Protects equipment from damage caused by wrong grease
- Delivers level of safety in the food and beverage industry
- Prevents cross-contamination of grease
- High-strength polycarbonate body
- Aircraft aluminum end caps
- Easily replaces existing steel tubes

Applications

- General industry
- Food and beverage industry

Alemite Reel Mounting System

Alemite's Reel Mounting System is designed for use with their popular Heavy-Duty Hose Reels. The system utilizes a channel and bracket for safe, convenient and easy installation.

Benefits

- Avoids wasting costly or specialty greases
- Simplifies reel mounting, exchange and service
- Reduces risk of accidents by avoiding awkward mounting in difficult-to access areas
- Installs on horizontal or vertical beams and struts, or directly to a wall
- Six channel lengths for mounting up to six reels
- Creates a clean, professional-looking shop environment

Features

- Reel slides and locks into preinstalled bracket
- Painted black steel channel and bracket
- Channel has welded nuts for easier mounting and time savings
- Each reel requires one bracket
- Components sold separately or in kits with hardware included
- Compatible with Alemite open and enclosed reel
- Bracket interchangeable with competitive systems

Lincoln Industrial How To Video: Lincoln digital oil meters - Calibration procedure

This video walks you through how to change the volume unit of measure, program in the scale factor, test and calibrate your digital oil meter to accurately dispense lubricant.

This video applies to the Lincoln digital oil meter models 980, 981, 982, and 967.

Watch the [Lincoln digital oil meters calibration video](#).

About *FLO Components Ltd.*

For over thirty years, leading manufacturing companies in a wide range of industries have depended upon FLO Components' turnkey lubrication "Solutions" to reduce unscheduled downtime and improve productivity. In addition to customized systems, equipment & lubricants, FLO Components' "Solutions" include system design, scheduled on-site maintenance plans, personnel training lubrication audits, in-house and on-site service and on-site installation.
