ORSCO equals Controlled Oil Delivery for your Chain Lubrication Applications.

Want to extend your chain life, reduce unscheduled downtime while using less oil and ending up with a cleaner machine? This is all possible with affordable ORSCO precision oil metering spray lubrication system.

How? Using an unique metering injector, the Orsco System provides a consistent metered amount of oil film to your application point through it's industry exclusive spray head. With it's adjustable controller, the oil is delivered on either a continual or timed basis through a spray head located right where the lubricant will be most effective.

Series 170 - A Simple Solution

Available as a complete system or in two modular packages, Orsco's Series 170 has the flexibility and adaptability to fit any piece of equipment.

With a injector cycle rate of up to four drops per second, Series 170 effectively meets the lube requirements of your most demanding application.

Reliability and durability - Series 170 injectors are tested and rated at the maximum injector rate for millions of cycles.

Features & Benefits

- Fixed volume delivery improves lubricant control
- High injector Cycle rate can accommodate applications requiring large amount of lubricant
- Three-piece reservoir design makes fluid levels easy to see and the components easy to clean.
- Compact modular design with minimal external piping is ideal for Original Equipment Manufacturer (OEM) applications
- Patented Spray nozzle design
- Easily adaptable modular package.
- Provides cost-effective environmentally lubrication while at the same time not contaminating your products.

Complementing Orsco's standard and custom designs, **Flo's** factory trained installation technicians install your system on-site and as per your schedule.

End Result – you obtain a complete turnkey **Solution** consisting of the ORSCO advanced oil lubrication system and installation.

In This Issue

- ORSCO for the controlled delivery of oil to your critical lubrication points.
